

## Open Access Attributes

**Publisher: PLOS**

**Agreement: PLOS – All Titles, Unlimited Publishing Offer (2023-2024)**

**Date: May 20th, 2022**

Nr	Open access (OA) attribute	PLOS
1	OA - included publications Which publications/titles of the publisher's portfolio are included in the agreement?	PLOS One, PLOS Genetics, PLOS Computational Biology, PLOS Digital Health, PLOS Neglected Tropical Diseases, PLOS Pathogens, PLOS Medicine, PLOS Biology, PLOS Sustainability and Transformation, PLOS Genetics, PLOS Climate, PLOS Water
2	OA - included article types Which article/text types are included in the agreement?	Research Articles, Registered Report Protocol, Registered Report Article, Lab Protocols, Study Protocols, Discovery Report, Update Article
3	OA - eligible authors Which authors can publish under the agreement?	Corresponding authors with affiliation to the Institution. For the Community Action Publishing titles, there is an additional benefit where we provide a 25% savings off of the article publishing fee for the corresponding author when the contributing author is affiliated with a member institute but the corresponding author is not.
4	OA - excluded sites Are specific sites/sections of a participating institution excluded from publishing under the agreement?	Sites and Affiliated Institutions not included in the original agreement terms are not eligible for funding coverage.
5	OA - author identification Which data/information is needed for author identification?	Domain Name and/or Ringgold ID
6	OA - workflow author identification How does the process of author identification (matching authors and participating institutions) work?	It is voluntary for the author to announce institutional affiliation at the time of manuscript submission in either Editorial Manager or Rightslink.
7	OA - platform / dashboard link How can the publisher's platform ("author dashboard") be accessed and by whom?	We send monthly accepted manuscript reports to monitor what is being published under the deal, and we provide access to a usage dashboard via LibLynx to monitor COUNTER usage statistics.
8	OA - article licence Which licences are offered for OA articles?	CC-BY
9	OA - article licence exceptions Are deviations re. the article licence offered (e.g. due to funders' requirements or authors' choice)?	All articles are CC-BY

10	OA - relevant date / time frame for article inclusion Which is the relevant date / time frame for inclusion of an article under the agreement?	Date of Article Acceptance
11	OA - article reporting Are reports of OA articles made available?	Yes, Monthly Accepted Manuscript reports and COUNTER Usage Statistics
12	OA - article reporting delivery How are OA article reports delivered? / How can OA article reports be retrieved?	Monthly Accepted Manuscript reports are sent monthly via e-mail. COUNTER Usage Statistics are self-serve via the LibLynx platform and can accommodate SUSHI harvesting.
13	OA - reporting of opt-outs Are reports of articles available, where the author decided to opt-out from publishing OA?	Not applicable - all articles are OA.
14	OA - labeling of metadata Are articles labeled as OA in the publisher's metadata?	Yes. They are labeled as OA in the XML.
15	OA - delivery / depositing of OA articles Does the publisher deliver / deposit OA articles?	Yes
16	OA - delivery / depositing of OA articles: recipient Who is the recipient when publisher delivers / deposits OA articles?	PubMed, PMC, Crossref, Figshare, and JISC. We don't deliver the entire article to every site--I believe Figshare gets Figures+captions and metadata.
17	OA - delivery / depositing of OA articles: interface Which interface is used when publisher delivers / deposits OA articles?	FTP or SFTP
